New Business

Brandon Voegtle, Bureau of Land Management (BLM) Fire Management Specialist, explained how WRAP residents could create a fire adapted home. Presenting protective measures in three zones—Immediate (0-5 feet), Intermediate (5-30 feet), and Extended (30-100 feet), members learned how to decrease the risk of fire in residential areas thus decreased the risk of fires spreading to wildfire status.

A question and answer period followed including discussing planning a fire evaluation assessment of Rangely.

The next meeting will be held Thursday, June 9, at 7:00PM, with a basic firearm safety presentation being held.

There being no further business, it was moved by Don Davidson and seconded by Heather Fitzpatrick to adjourn the meeting. There being no objections, the motion passed, and the meeting was adjourned at 8:01PM.

Respectfully Submitted,

Susie Berardi
